

IC2 machines Details

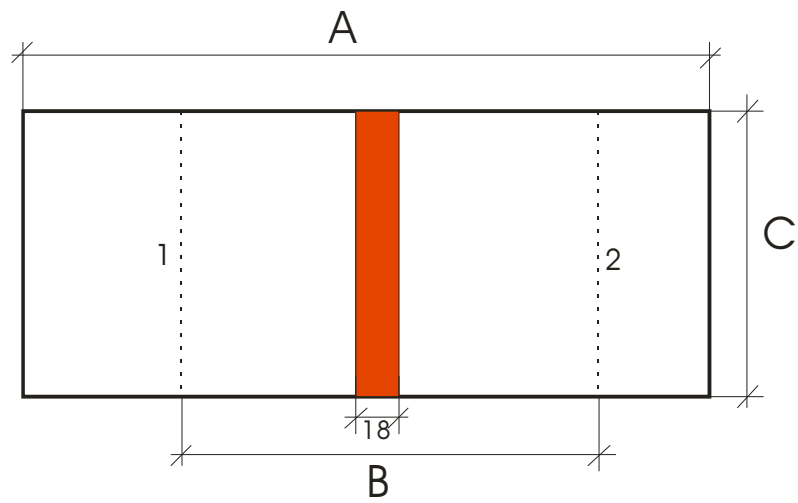

<p>Technical specifications:</p> <p>Width: 1.200 mm Length: 2000 mm Height: 0,9m up to 1,5m (adjustable) Weight: 120 kg 230 V, 50/60Hz Hz, 1100 W</p> <p>Settime: ca. 10 Min. Set without tools.</p> <p>Digital speed- and heatingdisplay</p>	
<p>Equipment</p>	<ul style="list-style-type: none"> - two heating/bendingline - Counter with stopfunktion

Speed:

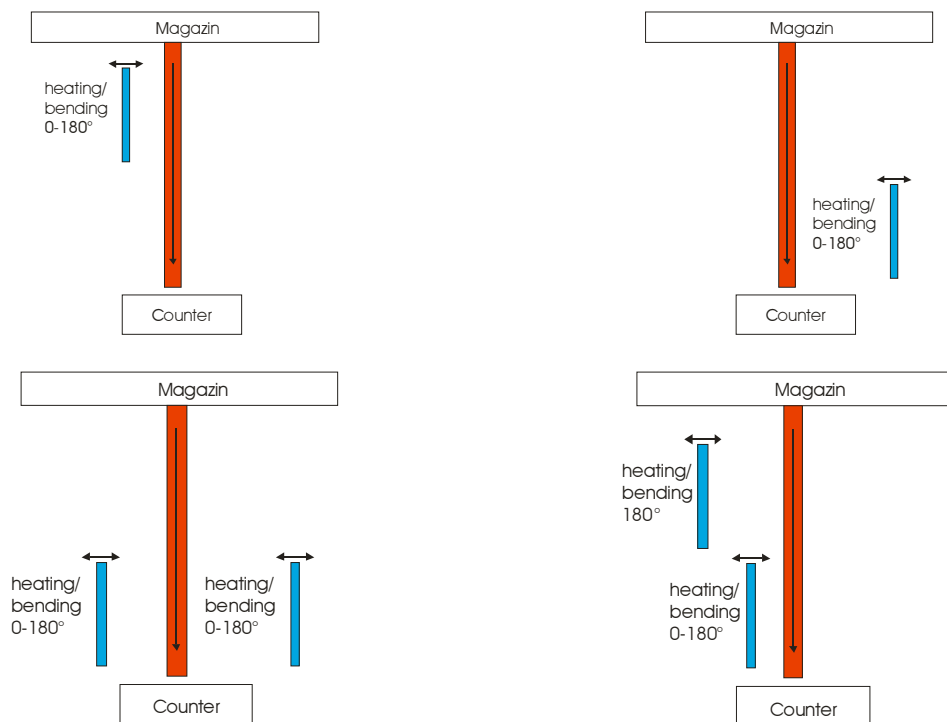

The machine works from 50 mm/sec. up to 200 mm/sec.
 Theoretically possible quantities up to 5000 pieces / hour.

Quality:

The same transport, exactly heating and heatingtime produced a exactly quality from first up to the last part.

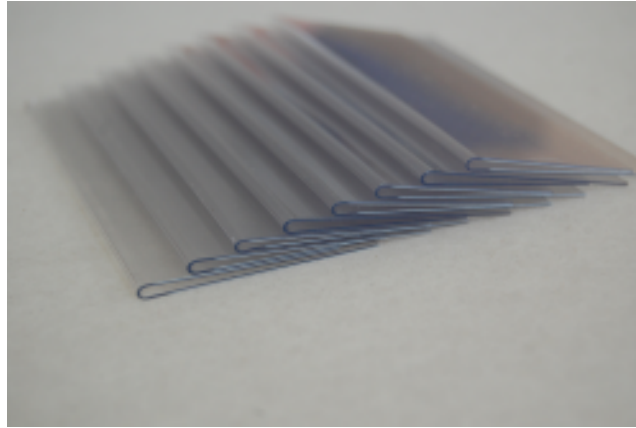

Material Format	Min	Max
A	45mm	400mm
C	50mm	150mm
Bending	Min	Max
B	42mm	A-20mm
Material thickness	Min	Max
PVC	0,25mm	1mm
Radius	0,2mm 1°	3mm 180°

Automatic PVC-Bending machines IC2
Applications
0,5 – 0,8mm PVC

0,25 - 0,35mm PVC
